

LETTER OF RECOMMENDATION

15.07.2019

JACOBSDALSAAGMEULE

I, Marike Janse van Vuuren had the privilege of working with Ronny Brown from Jacobsdalsaagmeule at Kathu Solar Park 2017 – 2019 where I was the Environmental Officer overseeing the recycling and overall waste management process on site. He ultimately contributed to recycle 93% of the waste which was generated on site. He is extremely reliable and hard working. His work ethics, environmental care and concern and capability to transport various materials for recycling purposes in a short period of time is very commendable. I strongly recommend Ronny Brown and he would definitely be a great asset on any site for recycling initiatives due to his extensive knowledge about all recycling materials and the distinction between other waste types.

Signed: 
Marike Janse van Vuuren
